SET IN STONE

Warren Au, Studio Gestalt & Alexandra Mason, Studio AEM Studio Gestalt, Surry Hills, NSW; (02) 8091 0883 or studiogestalt.com.au. Studio AEM, Sydney, NSW; 0428 748 397 or studioaem.com.au.

Tactile and tonal, this Sydney kitchen has a timeless, pared-back aesthetic that's all about showcasing glorious natural materials. Swathes of beautiful stone star on the benchtops and splashback, while a travertine floor anchors the space. "The crystal lighting creates a divine contrast to the sleek joinery and adds some wow factor," says Warren Au, director of Studio Gestalt, who collaborated on this project with Alexandra Mason, director of Studio AEM. Behind this sleek galley sits a butler's pantry – a workhorse space where function comes first and mess is tucked out of sight. "The new layout allows for better circulation and conversation," adds Warren. "The owners love it."

HOOKED ON CLASSIC

Lauren Mahoney Studio Trio, Northbridge, NSW; (02) 9967 3060 or studiotrio.com.au.

The owners of this Sydney home requested Studio Trio design them a "functional, classic and beautiful" kitchen that would work like a dream for them and their young children. Director Lauren Mahoney certainly rose to the challenge, delivering a kitchen where there's ample space for meal prep, room for kids to eat at the island, and where dinner time is a no-fuss operation thanks to the inclusion of two ovens, two dishwashers and two integrated bins. "There is no question that this is a fully equipped, hard-working kitchen," says Lauren. The marble splashback steals the show, with the oversized pendant light and stools covered in a family-friendly velvet also adding beauty to the space. ▶
